

THE DOTHAN EAGLE

VOLUME 8

DOOTHAN, ALABAMA, FRIDAY EVENING, FEBRUARY 17, 1911

NUMBER 100

SERIOUS WRECK ON COAST LINE

NEGRO PORTER KILLED; MAIL CLERK, ENGINEER AND NEGRO FIREMAN HURT

Engineer M. Williford and his negro fireman are badly scalded, C. D. Tally a mail clerk of Dothan is painfully bruised and George Wynn a negro porter is dead as a result of a collision of two runaway box cars and train 65 on the Coast Line road which occurred last night on the high river bridge at Waterford. The cars got loose at Ewell, and being heavily loaded with fertilizer came down the steep grade at a high rate of speed, crashing into the train with a great crash. The negro porter was on the pilot of the engine and was crushed to death instantly. The fireman was badly scalded and then thrown to the tender which telescoped the adjoining mail car. Mr. Tally, the mail clerk was thrown into the debris and painfully injured about the shoulders.

Mystery surrounds the part of the accident in which engineer M. Williford figured. He was knocked unconscious at the first shock and when first found was in the passenger car, badly scalded and in a dazed condition, inquiring as to where he was. He was unable to account as to how he came to be in the passenger car so soon after the crash came and it seemed almost an impossibility for the injured man to climb over the wreck or even under it had the train been on the ground, although it was situated on the high trestle above the Choctawhatchie.

The negro fireman, in an unconscious state and in almost a dying condition climbed down a high ladder from the tender and walked home where he was shown medical attention.

The relief train with six physicians was sent from Dothan and the wrecking crew soon had the road cleared for trains 44 and 58 coming from Montgomery. Each of these two trains arrived in Dothan about 2 o'clock this morning.

The wreck last night happened in the same spot as the one of several years ago when several people were injured, just across the river stream.

Engineer Williford is well known in this city. He was in one of the worst wrecks happening on this division when, several years ago, at a wash-out three miles above the city, a whole freight train of produce was wrecked. In this wreck he and his fireman were badly injured. Many Dothan people assisted in clearing the debris under which the two men were pinned.

Engineer Williford was taken to his home in Elba, as was Mr. Tally also.

Miss Kathleen Mallory, the Secretary-Treasurer of the State W. M. U. will be in Dothan Sunday and will talk to the ladies of the Baptist church Sunday afternoon at 3 o'clock. This meeting is intended for the ladies of both Baptist churches and a large attendance is very much desired. The ladies from the other churches of the city have a cordial invitation to attend.

TRADE EXTRAVAGANZA ECHOES

Everything is in readiness for the Trade Extravaganza and if you have never laughed before you will break the record tonight.

Five dollars worth of fun for the small sum of fifty cents.

"Aunt Dianah" and "Martha Henrietta Johnsing" will star in the Trades Extravaganza tonight.

Mrs. Reuben and her family will be seen and heard in the Extravaganza and are a whole show by themselves.

All who miss seeing the artistic, humorous and side-splitting Trades Extravaganza tonight will be sorry the rest of their days.

J. E. McCants, of Hartford, was among the well known visitors to the city yesterday afternoon.

Mrs. J. I. Alexander is seriously ill at the home of her daughter, Mrs. Lisenby on North Appletree street.

WILL VOTE ON MOODY BILL FIRST

Moody Spoke First, and Is Followed by Senator Spraggins Who Opposes the Bill

Montgomery, Ala., Feb. 17.—(Special to the Eagle)—At 2 o'clock this afternoon Moody was speaking in favor of the Moody dispensary bill and is to be followed by Spraggins, who is opposing this bill and will fight for the Parks bill. The vote is expected at 4 o'clock.

The Moody bill is to be voted on first, and then the Parks bill will come up for settlement.

The gallery is packed with spectators, but little enthusiasm is being shown.

ANOTHER RESIDENCE STALTED

G. E. Roland is having a handsome residence built on his lot on N. Oakes street, Brown & Flowers being the contractors. The building will be six rooms ground floor, but will have some rooms up stairs, it being a sort of a story and a half building.

The building of handsome residence in Dothan doesn't let up.

STEVENS-POPE

A marriage license was issued today for Mr. Samuel R. Stevenson, of Midland City, and Miss Sarah Pope, of Midland City.

AVIATOR PLUNGES INTO THE HUDSON

AIRSHIP SINKS LIKE A STONE, CARRYING MOREK NEARLY TO THE BOTTOM

New York, Feb. 16.—Charles F. Morek, a professional, though comparatively inexperienced aviator, was forced to dive into the Hudson river with an aeroplane today, while attempting to fly from a point near the New Jersey palisades to Central Park on Manhattan Island. He narrowly escaped with his life.

The motor stopped when Morek was nearly a thousand feet above the river and about 100 yards from the Jersey shore. He could not glide back to the Palisades or head for the New York side with power gone. Within sight of thousands, he plunged to the river.

In descending his aeroplane side-swiped the mast of a schooner and sank like a stone, carrying its operator nearly to the bottom of the river before he could release himself. Morek weighs 204 pounds, but although hindered with two pairs of heavy trousers and a sweater he came to the top and kept himself afloat until picked up by a launch.

"BOOK RECEPTION"

The "Book Reception" to be given by the City Improvement Club next Tuesday afternoon at 3 o'clock at the home of Mrs. Lillian Crawford, promises to be a most pleasant affair.

All the ladies of Dothan, members of the Improvement Club or library, and others who are interested in the progress and uplift of their city are invited to come and hear the splendid program and enjoy the social features of the occasion.

The gift of a book from each guest is voluntary, but it is hoped that a substantial donation will be made to the library's readable books. The City Improvement Club and the Library are two organizations worthy the consideration of every thoughtful woman in Dothan and it is expected that a large attendance will be in evidence upon an occasion which combines the interest of both.

An automobile party, composed of Mr. and Mrs. B. H. Meadows, Mrs. A. C. Coe and son, Albert, Mrs. L. Voss and Master Forest Collins, came up from Hartford to spend the day with relatives and friends.

The Willing Workers Society will meet next Monday afternoon at 3 o'clock. Mrs. Griffith will conduct the open exercises. Each member is invited to come and meet Mrs. G. H. Malone, Pres.

COWARTS MAN KILLS HIMSELF

W. H. FORRESTER SENDS BULLET FROM REVOLVER INTO HEAD

Will H. Forrester, of Cowarts, shot himself with a revolver this morning at 11 o'clock, death resulting a short while afterwards.

He was about 30 years old, and leaves a wife and two children. No cause is given to explain his act.

He was a brother of H. L. Forrester of Dothan, and was a member of the prominent family of Forresters at Cowarts, being a nephew of Senator B. A. Forrester.

CICEROIAN NOTES

The Ciceroian Literary Society met last Monday, February 13th, and carried out a very interesting program.

The debate, "Resolved, That Education is of More Benefit to Man than Money," was enjoyed by all. The negative side won, and Mr. Edward Baxley made the best speech.

Mr. Baird made an interesting talk.

There being no other business, we adjourned to meet next Monday with the Franklins.

John B. Harris,
Alice Allen,
Press Committee.

Walter Wilkins, of Montgomery, was a business caller to the city today for a few hours.

BOLL WEEVIL LITERATURE

The steady march of the boll weevil eastward has caused no little alarm with the Alabama farmers. They feel that he will be with us in another year.

The Central of Georgia Railroad, realizing what the result of the boll weevil would be to this section, went out after information to combat him.

The Immigration Department of that railroad company got up some information and published it under the title of "What to Do When the Cotton Boll Weevil Reaches Alabama."

Under the head of "The Coming of the Weevil," we find this:

"Since the pest crossed the border of Mexico and the United States in 1892, it has covered the larger part of the area west of the Mississippi river, Louisiana east of the Mississippi, the delta and southern country, in the state of Mississippi and Washington, Baldwin and Mobile counties in Alabama.

"No means of checking the advance has been found, and it is safe to predict that the weevil will spread over Southern Alabama within two years, climatic conditions in this section being favorable to the progress of the insect."

The farmer who is interested can see from the following headings of different articles in the little book what the best thing to do to combat the weevil:

Selection of an Early Variety of Seed.

Destroy all Cotton Stalks

Plow early in the Fall

Put Winter Cover Crop on Land

Prepare the Soil Carefully before Planting.

Fertilize to Make a Quick Crop

Pick up Fallen Squares.

Pick Cotton as Early as Possible

Diversified Farming and Rotation of Crops.

Protecting Birds, the Natural Enemy of the Boll Weevil

To secure further information, write either of the following gentlemen of Dothan, who will gladly send one of the little booklets; or you may call on them while in Dothan:

E. H. Malone, W. F. Newton, L. G. Biggers, Sanders & Co., S. A. Jordan, J. R. Young, J. R. Faircloth, R. C. Williams, or J. F. Jackson, Immigration Agent, Central of Georgia Railway, Savannah, Ga.

Sugar Cane Seed and Seed Potatoes for Sale—Sugar cane, per hundred stalks, 75¢; seed potatoes per bushel, \$1.00. Phone 263, Dothan.

This hasn't been much of an overcoat town for several years, but they may be needed for a few years yet.

MAINE TO VOTE ON PROHIBITION

CONSTITUTIONAL AMENDMENT ADOPTED IN 1881 WILL BE RESUBMITTED

Augusta, Me., Feb. 16.—Whether the prohibition of the manufacture and sale of intoxicating liquor shall continue under the constitution of the State of Maine, is to be determined by the voters of the state at a special election next September.

By a vote of 105 to 40 the House of Representatives passed the senate bill today re-submitting to popular vote the constitutional prohibition amendment adopted in 1881. As both branches have sanctioned the measure, all that remains is the signature of Governor Plaisted, who was elected on a platform pledging re-submission.

JUDGE ACCOMODATES PRISONER

Stanford, Ky., Feb. 16.—"I got enough whippings when I was a kid and I liked them so well that I'd rather take an old fashioned beating right now than work out a fine on the roads," declared a prisoner accused of intoxication to Police Judge Menefee, of Stanford this morning.

The result was a transfer of court to an improvised whipping post, where the Judge, in the role of "prosecutor-executor," piled a horsewhip to the prisoner, Lee Long, who was arrested last night accused of intoxication. A big crowd cheered the Judge in his efforts to mete out punishment.

Settling Marie.

Mayor Charles H. Nevin of Butte, was talking about the Marathon waltz that he had stopped after it had gone on continuously for fourteen hours, says the Kansas City Star.

The Central of Georgia Railroad, realizing what the result of the boll weevil would be to this section, went out after information to combat him. The Immigration Department of that railroad company got up some information and published it under the title of "What to Do When the Cotton Boll Weevil Reaches Alabama."

"Here's another letter, ma'am, I've got from Mrs. Jones' cook Marie. Marie says they've her a conveyance now. It fairly makes one sick. Flubber!"

"Lizzie Ann hesitated, then said differently:

"I bin thinkin'—if I hired an auto and a photographer—would ye mind, mam, if me and the master was took on the front seat together? It would settle dat Marie when I sent her the picture."

Outnumbered But Battled

The generals of the Nicaraguan Army were crowding about the tent of the paymaster, says the Cleveland Plain-Dealer. In the distance stood the only private.

The pay of a general in the Nicaraguan Army is 20 cents a day and when it is due he wants it. It is possible that the number of generals would be less if their cost to the government wasn't so little.

After the generals had all filed by the pay tent the only private snarled up.

"Got dat wad o' mine ready?" he carelessly asked.

"Sure, Sam," the paymaster sniffling replied. "Here you are, \$74 for the month of November sign the book on that line."

The private took the pen.

"Dat's all right dis time, boss," he said, "but I'm going to have a hundred nex' month or I quit."

And then as he sauntered away, he softly sang, "It pays to be a private."

BOLD ATTEMPT TO ROB HOTEL

New York, Feb. 17.—With the aid of companions in a waiting automobile a masked bandit early today attempted to hold up the clerk in the Hotel Frederick. The attempt failed because Robert G. Barnard, the clerk, grappled with the bandit after he later had fired one shot and wounded him in the hand, and because the robber's revolver twice missed fire when he tried to follow up his first shot by two more.

The bandit and his companions got away in the automobile.

HOOKWORM DISPENSARY CLOSED TOMORROW

Dr. J. Fraser Orr of the Dothan Free Dispensary for the treatment of hookworm subjects announced today that the dispensary would be closed after tomorrow afternoon at five o'clock. He will leave the city for other territory where he will launch campaigns for free treatment.

Anyone wishing to take the hookworm treatment at the dispensary must call before five o'clock tomorrow afternoon or anyone who wishes to take the second treatment must also call before this hour.

FRANKLIN NOTES

The Franklin society held its regular meeting February 13, and carried out one of the best programs of the season.

The debate, "Resolved, That Electricity Is More Important Than Steam," was won by the negative side, and Ewell Middlebrooks made the best speech.

Miss Lettelle McLennan gave the recitation which will be rendered in the public debate, March 13.

One of our former members, Maud Crawford, visited us and gave us a short talk about the improvement of the society since she was a member.

T. J. Whatley,
Willie Pearl Carter,
Press Committee.

FRIENDLY PRANK ENDS FATALLY

WOODY KIRBY DEAD AS RESULT OF HAVING POWERFUL AIR HOSE TURNED ON HIM

Decatur, Ala., Feb. 16.—Woody Kirby, a well known young mechanic who was employed by the Louisville and Nashville Railroad shops in New Decatur, is dead as the result of a friendly prank on the part of Mr. Pigg, a fellow workman in the shops.

Mr. Kirby and Mr. Pigg were engaged in a friendly scuffle in the boiler shop, where they worked, when Mr. Pigg turned an air hose on the lower portion of Mr. Kirby's body, almost mowing his vitals out at the time.

The air came out of the hose with great force, knocking Mr. Kirby to the floor and he was carried to the home of his cousin, L. D. Kirby, on East Grant street, New Decatur, where he made his home, and died there at six o'clock this morning. The accident happened at 12:30 last night. Mr. Pigg is grief-stricken over the accident.

Mr. Kirby was about 24 years of age and unmarried. His father resides in Texas and he has been telegraphed, but up to this time no word has been received from him. The remains will be interred at Johnson's Chapel, about fifteen miles out in the country, but the funeral arrangements will not be completed until Mr. Kirby's father is heard from.

Misplaced Trust.

The wife of a Brooklyn city official was standing at the gate of her grounds when a tramp came along, says the New York Press. The fellow doffed his battered hat and held out his hand. The woman, who prides herself on her ability to read faces, looked at the man, closely.

"Well," she said, "I never give to tramps, as a rule, but there's something about your face I like—something which makes me feel I can trust you."

So saying, she handed the tramp a quarter. He walked away a dozen yards, then he turned.

Friday Evening February 17, 1913

When in doubt, pay cash or put it off.

Money has wings, and few people get a chance to drop them.

Most women expect their sons to do better than their father did.

It looks now as if we would have a hundred automobiles in this town by summer.

Don't grieve over split milk, but get a mop and clean it up before a sanitary officer finds you out.

It will be a poor business man who stays in this county during the next ten years and don't make money every year.

Champ Clark's name out to sound alright, for he has whittled on it enough since it was given to make a pretty good name.

So long as the money powers of the east feel that good times will continue, then so long will good times be with us.

Atlanta is missing a good deal of advertising just now, by not having discovered a citizen who knows something of Dorothy Arnold.

Dothan has made a record in building during the last year that hasn't been equaled in her past history, and she has some history.

A man will tell a lifetime to get on the end of the road, and then growl because a brass band doesn't serenade his arrival, says Frank L. Stanton.

George Gould is going to retire from the presidency of the Missouri Pacific railroad, probably to look after the rolling stock of some of his unformed son-in-laws.

Weather had just as well come and do its worst. The people of this part of the state are treating it like there was plenty more where it came from.

Don't try to say "Jauroz," for they say you must call it "whereas," like so many other of those Mexican names that spell one thing and pronounce another.

Harry Thaw had as well learn a trade, for he will need something that will enable him to employ his mind, having worn out all the appeal he had coming to him.

If it is a fact that 65,000 babies are born every year in Manhattan, then there is no use talking, they will continue to ship them to such places as Texas, where they are appreciated.

Emperor William's cold is taking the natural course, according to the Age-Herald, which says that colds are no respectors of potentates. It sounds alarming when a king has something that demands the attention of the physicians.

The postmaster at Philadelphia went off and left the job, to be handed out. Some think this strange, but he knew the job would slip from his fingers as soon as it was settled between Woodrow Wilson and Judson Harmon as to which it would be next year.

We know of fifty men in Dothan who lost a hundred thousand dollars by not buying Dothan real estate ten years ago. Some so recent as five years ago. They are here yet, moping about, but will own that it is still a good investment, but it is out of their class.

Atlanta has something else to feel bad over, and another excuse for people to go there. It now is boasting over the remarkably healthy place the federal prison is, reconditioning a few months stay to the health experts.

When Champ Clark told them the other day that it would only be a question of time before the United States would take over all of the territory on the western hemisphere, it caused a ripple. Some one ran out and told the President about it, and he got perfectly furious, and was on the verge of apologizing for this country to England and Mexico.

At great length the statisticians have shown us that we need not be surprised if no more cold weather comes this spring. Figures are published showing that we have missed cold weather before at this season of the year and got off with it. We are of the opinion now, however, that a different condition will prevail. We will evidently have some cold weather—killing cold, too.

The chief of police at Council Bluff has put himself in a class all alone. He has the name of keeping the best order of any officer in the country, and he does it by putting all of the boys in town on his force, at different intervals, instructing them to keep order, make arrests, and do anything else that a policeman is supposed to do. The trick works well, he says. The boys are not old enough to contract the habit of being "baffled."

While it's popular just now to ask, "What has become of the old fashion, etc." the Atchison Globe inquires about the old fashion boy who used to smoke grape vine. And where is he? Grown to man's estate, and is a total abstainer. The old fashion boy, or the new, rabbit-tobacco-smoking boy, never let the habit take hold of him. He watched the other boy do it, but when he had tried it one time, he never forgot that sore tongue.

THE PEOPLE'S VERDICT

The fact that the fellow senators in Washington may believe Lorrimer innocent, will cut no figure. The public has done passed on him.

The people of Illinois have passed on him; the people of Chicago believe he is guilty of buying his seat, and the

United States Senate cannot help this.

No Southern senator who took up Lorrimer's fight for him has done a thing that will help them when they themselves are before the people for a summing up of their records.

There died in Illinois the other day a man who has the world's long distance record for establishing newspapers. During his working years he launched 159 "long-fell-wants," and strange to say, many of them outlived the founder. The man at one time had a bright future, but he contracted the strange desire to launch newspaper enterprises in communities where there was no paper, or in towns where a live, snappy, up-to-date paper was needed. This grew on him and he never got over it. He was a Kentuckian, but not of the Watterson type.

THE HORSE REASONS.

According to a story coming out of Georgia, the horse reasons and knows many things they have no way of expressing.

A rural carrier, has on his route many subscribers to the Tri-Weekly Constitution, which is delivered to them Mondays, Wednesdays and Fridays. This old mail horse knows the days for the paper, and he turns out to the boxes that take the paper on paper days, and doesn't do it the other days, showing, according to the owner, that he has reasoned out the thing satisfactorily.

HIS BEEN A BUSY MAN

Now that President Taft is getting along toward the end of his last term in office, they are telling it on him that he has lived in Washington for ten or twelve years, and has never seen the sights that the rubber-neck wagons afford the common visitor in two hours. He says that he went up to Washington's monument the other day for the first time, and that he visited Mount Vernon recently for the first time, and really went through and looked at the capitol. He ought to invest a dollar and take in the old town that has been so kind to him since he left.

It may seem strange to the average man that President Taft hasn't visited the principal places of interest before now, but you must remember that he has been away from home a good deal of the time, visiting the historic sights of other cities, from Manila to the Panama Canal, to say nothing of the time he has spent on the Sawbath.

TAXATION
We will never have good roads in Houston county, or any other county

without taxation. That taxation may be sugar-coated, so the people will not recognize it as taxation for roads, but it will be taxation, coming from the people, nevertheless.

In this county it is likely that good roads will come. The proposed dispensary bill is to set aside one-third of the proceeds of the dispensaries for good roads, and most people will not consider this taxation, but it is. However, the most of us are willing for taxation to come that way—from the drinking man. He will be building good roads, for he will need them worse than any one else.

Our county would vote down a bond issue, where good roads were to be built by bonding the county, for they fear debts. They will hardly think nothing from building good roads from the dispensary funds.

Same way with the school funds. Some want the dispensary because it lessens tuition and the patrons are not taxed direct with a higher entrance fee. Somebody is paying, and if the man with the appetite wants to pay, then it is alright in the long run.

DAILY HEALTH CHAT.
(By Gordon Lloyd, M. D.)**Removal of Adhesive Plaster**

Adhesive plaster may now be removed absolutely sans pain. And inasmuch as adhesive strips have practically superseded bandages for holding gauze or cloths over small wounds, the new method of taking off the strips which we are about to quote is as helpful in household practice as in surgery proper. Every up-to-date family medicine shelf supports a roll of half-inch adhesive plaster nowadays. But the application of "adhesive," like many things in this life, is easier done than undone, except by Dr. E. J. Beardsley's method, which he reports in the Journal of the American Medical Association as follows:

"Such a frequent and simple procedure as the removal of adhesive plaster from the skin of a patient is not infrequently accompanied by considerable pain and discomfort. Especially is this true if the plaster has been placed over hairy surfaces, or if the hair has grown subsequent to the application of the plaster. The usual methods of aiding the removal of the plaster by the aid of benzine, alcohol, or per oxide of hydrogen are not particularly effectual while, in themselves, the agents often add to the patient's discomfort.

"I discovered by accident that oil wintergreen when applied to adhesive plaster removed completely the adhesive elements in a very short time and since then I have found this agency a very useful one for this purpose. It is necessary to use only a small amount of the oil, which is applied directly to the plaster and easily spreads itself throughout the adhesive material. As far as I am aware this agent is not in common use for this purpose and it seems well to call attention to the value of the method. When extensive areas of plaster are to be removed, the application of an ointment of wool fat with ten per cent of oil of wintergreen incorporated is even more useful than the oil alone."

The approved way of putting up a sprained ankle is to incise the ankle in a laminated and criss-crossed sheath of adhesive plaster. Also, broken ribs are usually held in place by adhesive strips overlapping one another and almost incircling the chest. The removal of such large applications as these by the old method is a winter of discontent made painless if not "glorious" by this oil of wintergreen.

No Liberties Allowed.

Mrs. MacLachlan was kind to her American boarder, but she did not propose to allow her to overstep the limits of the boarder's privileges, and she made it very clear, says the Youth's Companion.

One Sunday the boarder returning from a walk, found the windows of her room, which she had left wide open, tightly closed.

"Oh, Mrs. MacLachlan, I don't like my room to get stuffy," she said, when she went down stairs again.

"I like plenty of fresh air."

"Your room will not get stuffy in one day," said her landlady firmly.

"Twas never our custom, miss, to have fresh air rooshin' about the house on the Sawbath."

Madrid, Ala., February 13, 1911
Mr. E. R. Malone, President,
Dothan Guano Company,
Dothan, Ala.

Dear Sir:-

I have been using Grange Mixture ever since you have been making it. I quit a year or two but went back to it. Last year I put nine bags on five acres and got 2070 lbs. last cotton off of that five acres. I put seven sacks of Grange Mixture on six acres of corn and I got forty-five bushels to the acre.

Yours truly,
J. W. Durham.

Buying Experience**There is Nothing Like Experience**

in Buying Clothing at the Right Price

That will enable the merchant to secure a stock that will meet the approval of the customers. We feel that our long experience in the clothing business justifies us in saying that we have put in a stock of spring clothing that will please the public.

The Spring lines are of particularly pleasing patterns and designs. You might call by the store and let us show you something new in clothing, for men and boys.

**Delicious**

Stews, Soups, entrees or fricasées made from meats from us would be hard to spoil in the making. The quality and flavor of high grade meats will always tell even with poor cooking. You will find the best that is raised at this market, and always tender and of fine flavor. How about a nice roast or a beef loaf for your dinner today?

A SPLENDID TONIC

Cora, Ky.—Mrs. Eva Moore, of this place says, "I was so weak I could hardly walk. I tried Cardui, and was greatly relieved. It is a splendid tonic. I have recommended Cardui to many friends, who tried it with good results." Testimony like this comes unsolicited, from thousands of earnest women, who have been benefitted by the timely use of that successful tonic medicine, Cardui. Pure vegetable, mild, but reliable, Cardui well merits its high place in the esteem of those who have tried it. It relieves women's pains, and strengthens weak women. It is certainly worth a trial. Your druggist sells Cardui.

Lost Hog.—Black Spade, male hog, strayed from place last week. Reward for knowledge of him.

E. H. Rogers.

Cotton Seed & Water Melon Seed. I have on hand a choice selection Hastings' Mortgage Lifter cotton seed for \$1 bushel. In 10 bushel lots, 75¢ per bushel.
